

Profiles which can be counter-welded

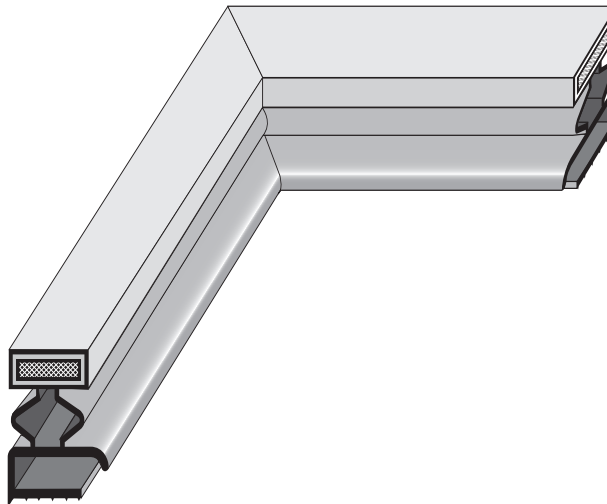

Attention: Check carefully if you are dealing with a counter (welded) profile. These are very rarely used.

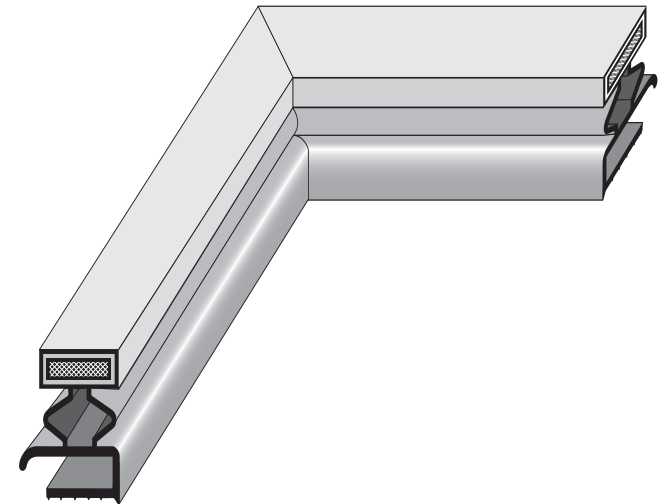

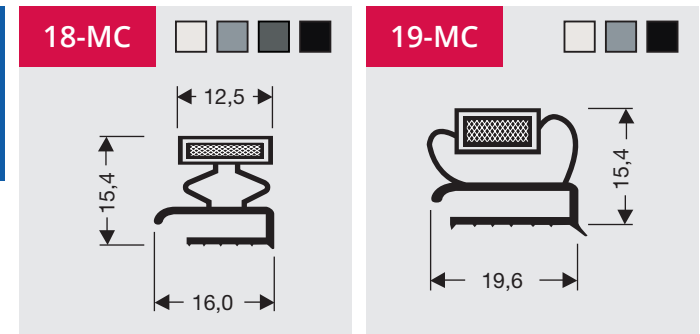

Profiles which can be counter-welded

When you require the magnet of the profile to be on the opposite side, the seal must be counter welded. The flap of the flap profiles will be open to the outside instead of to the inside.

Example

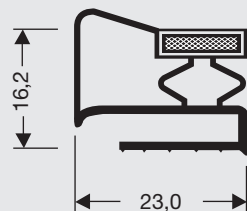

Normal 18-M
Flap open to the inside

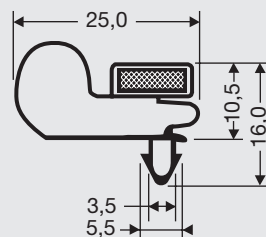

Contra 18-MC
Flap open to the outside

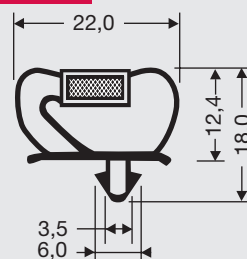

105-MC

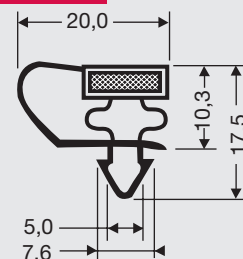

30-MC

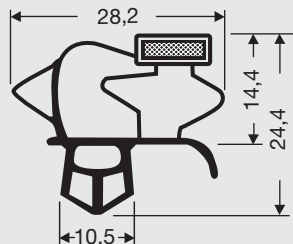

32-MC

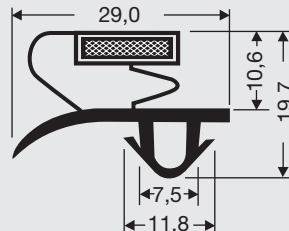

73-MC

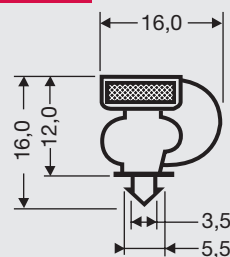

79-MC

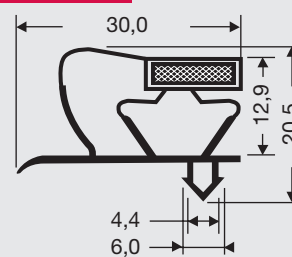

81-MC

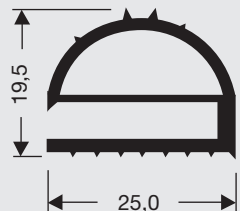

173-MC

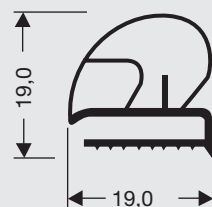

83-MC

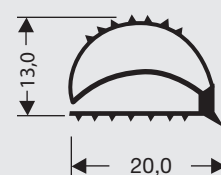

169-AC

10-AC

158-AC
